Alexandria, VA 22313-1450

Sir:

In Supplement to the Information Disclosure Statement filed November 24, 2004, and pursuant to 37 C.F.R. §§1.97 and 1.98, applicants respectfully request that the documents listed below in reverse chronological order and on the accompanying PTO 1449 be considered by the Examiner and made of record in the above-referenced application. Applicants have not enclosed copies of issued U.S. Patents or published U.S. Patent Applications as their submission is not required under 37 C.F.R. § 1.98(a)(2)(ii). Applicants will provide copies of any issued

U.S. Patent or published U.S. Patent Application disclosed in this Information Disclosure Statement should the Examiner so require. The citations listed below are also listed in the accompanying PTO Form 1449.

- 1 United States Patent 7,115,653, issued October 3, 2006, by Baxter et al., entitled Small organic molecule regulators of cell proliferation.
- 2 United States Patent Application Publication 20050203014, published September 15, 2005, by Rubin, entitled Composition and methods for modulating CNS activity.
- 3 United States Patent Application Publication 20050080138, published April 14, 2005, by Guicherit et al., entitled Mediators of hedgehog signaling pathways, compositions and uses related thereto.
- 4 United States Patent Application Publication 20050019801, published January 27, 2005, by Rubin et al., entitled Stem cell-based methods for identifying and characterizing agents.
- 5 United States Patent Application Publication 20050014796, published January 20, 2005, by Baxter et al., entitled Mediators of hedgehog signaling pathways, compositions and uses related thereto.
- 6 United States Patent Application Publication 20050266555, published December 1, 2005, by Lu et al., entitled Progenitor cells, methods and uses related thereto.
- 7 United States Patent Application Publication 20040023949, published February 5, 2004, by Baxter et al., entitled Mediators of hedgehog signaling pathways, compositions and uses related thereto.
- 8 United States Patent 6,683,108, issued January 27, 2004, by Baxter et al., entitled Agonists of hedgehog signaling pathways and uses related thereto.

- 9 United States Patent 6,683,192, issued January 27, 2004, by Baxter et al., entitled Small organic molecule regulators of cell proliferation.
- 10 United States Patent 6,552,016, issued September 2, 2003, by Baxter et al., entitled Mediators of hedgehog signaling pathways, compositions and uses related thereto.
- 11 United States Patent 6,613,798, issued September 2, 2003, by Porter et al., entitled Small organic molecule regulators of cell proliferation.

Identification of the listed documents is not to be construed as an admission of the applicants or attorneys for applicants that such citations are available as “prior art” against the subject application. If the Examiner applies the documents as prior art against any claim in the application and applicants determine that the cited documents do not constitute “prior art” under United States law, applicants reserve the right to present to the Office the relevant facts and law regarding the appropriate status of the documents.

Applicants further reserve the right to take appropriate action to establish the patentability of the disclosed invention over the listed documents, should the documents be applied against the claims of the present application.

Applicants believe there is no fee required for this timely submission. However, if any fee is required, or if any overpayment has been made, the Commissioner is hereby authorized to charge any fees, or credit or any overpayments made, to Deposit Account 02-4377. A duplicate copy of this paper is enclosed.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'LBK', is written over a horizontal line.
